

audrey belliot darmon

full stack developer & maker

Full stack developer with a background in design, social innovation and business. Graduated from Le Wagon web development bootcamp in 2024, I would love to contribute to web projects with a sustainable & ethical design approach.

experience

Full stack web developer (Sept 2024 to today)

Working as a freelance full stack web developer, currently developing a web app for a personal trainer. Other projects in my portfolio audreybelliot.com

Co-founder of Slow lab (December 2021 to today)

Collective of designers at the intersection between the slow movement and low-tech to create awareness and encourage citizens to take action. [Slow lab website](https://slowlab.org)

Research resident (September 2022 to August 2023)

Fab Lab Barcelona, Barcelona, Spain

Researcher in the European project [Centrinno](https://centrinno.eu) (showing the potential of industrial historical sites to become catalyzers for a more creative and sustainable future). Preparation of the [Poblenou Fabrica](https://poblenoufabbrica.org) exhibition (curation, content creation, workshops, round tables).

Open innovation Project manager (2019-2021)

Liberté Living-lab, Paris, France

Selected projects

- Public policy design project to deliver public services to a rural senior population with low digital literacy. User research and co-design workshops.
